

Innovative is an Engineering Design company specialising in custom machinery design and 3D factory modelling for the food, dairy & beverage industry. Due to recent expansion the company requires the services of a full-time:

## CAD Designer

The successful candidate will work across a variety of projects with primary focus on 3D factory modelling using Autodesk Revit and Navisworks software. The CAD Designer will work closely with internal management and also interact with overseas clients as required to ensure accurate delivery of project requirements.

### Requirements/Qualification

- 1-3 years of experience in engineering design
- Working knowledge of Autodesk Revit and Navisworks software
- Good verbal and written communication skills in English
- Passion for customer service
- Attention to detail
- Eager to learn new software as required and to build on existing knowledge
- Creative planning and problem solving skills
- Ability to interact effectively with other team members and management
- Degree in Engineering preferred, but not required
- Thai nationals only

### What we offer

- Office benefit package including 10 days annual leave, 15 public holiday and more
- Communication in English on a daily basis
- 5 day work week (Mon-Fri)
- Office location 3 min walk from BTS Chitlom
- Salary negotiable based on experience

**This position is available immediately! Interested applicants, please send your application letter with salary expectation and resume in English to [info@innovative.limited](mailto:info@innovative.limited).**
